Achievements/Tasks
- Worked on Core PHP, Laravel Framework along side with MYSQL
- PHP crud operations with basic understanding of HTML.
- Getting more grip and improve my frontend skills as well and also improve my jQuery concept during my internship time period .
- Get Promising Man of month in bitslcan it solutions

ORGANIZATION PROJECTS

Airdropja PHP Project
*AIR DROP responsible for making sure cargo reaches the right destination . Typical job duties for Cargo Handler include operating conveyor belts and forklifts, moving luggage and packages, lifting heavy objects, and ensuring cargo safety. These is Core PHP project. I integrate many pages of these project like **1.1) Profile Page 1.2) Dynamic Header to All Pages 1.3) Message page 1.4) Payments Page 1.5)Active user or Inactive User Page***

Teaching App
Basically this is project related to teacher and student in which teacher mark absent against student and add student . I work on it fix many issues mostly issues is related frontend development I fixed this issues by using jQuery . During this project I learn and grip on jQuery like selector hide and show and many functionality.

Ultimate Blue Theme Customization (Perfex CRM) CI
I made blue theme for Perfex CRM According to Client Mocup PSD . Perfex Basically is CRM which is made on CodeIgniter

SKILLS
